

TechFix

Have you ever been in the position where any of your home gadgets or furniture got broken, and you don't know who exactly you should call to fix it, or maybe you need something to be fixed as quickly as possible, and it's the weekend and only a few technicians are working, and you don't know exactly how to contact them. TechFix offers a simple and efficient solution to your problems. As TechFix contains the database for plumbers, carpenters, electricians...and many many more technicians to help you fix almost anything at any time. TechFix helps you find the best technician suitable for your problem, by giving you previous feedbacks about him/her from other previous clients. TechFix also informs you about the working hours of that technician, and his/her address if you want to go to the workshop yourself.

Client

In order for anyone to enjoy the services of TechFix all he/she needs to do is to make a TechFix client account, where he/she will enter his/her username, password, contact info, and address. And that's it, whenever any service is needed, just open the website, and choose the best technician for that job. You can then rate your experience with that technician and write a comment about him/her. And you can even recommend technician to be added to our database.

Technician

If you are a plumber, carpenter, electrician or any other types of technicians, TechFix is offering you an easy and efficient way to run your business. Just make a Technician account on our website, where you will enter your username, password, type of service, available working hours, you contact info and your workshop address. And TechFix will handle your business from there, and send viable clients flying your way.
